

ROCKVILLE HELP - IN NEED OF SPACE FOR STORAGE

Rockville HELP is need of a room 14 x 17, and 8' high for food storage to be accessed by volunteers to deliver food donations, stock shelves, and pack food.

Need outlets for freezer and refrigerator (happy to reimburse the cost of electricity). Will bring in shelving (about 20', in sections), two cabinets, and a work table to fit in room; no additional office equipment needed.

Ideally, the room would be easy to access from the parking lot, either on the ground level or served by an elevator (stairs alone would not work due to the weight of the boxes and bags that need to be moved in and out). Volunteers need also to be able to access room in the evenings and weekends. If the main entrance key is limited and cannot be copied, we would need to put a lock box outside.
