#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The United States Patent and Trademark Office (USPTO) administers the Trademark Act, 15 U.S.C. 1051 *et seq.*, which provides for the Federal registration of trademarks, service marks, collective trademarks and service marks, collective membership marks, and certification marks. Individuals and businesses that use or intend to use such marks in commerce may file an application to register their mark with the USPTO. Such individuals and businesses may also submit various communications to the USPTO during the prosecution of an application.

This information collection covers the various communications that may be submitted by the applicant, including providing additional information needed to process a request to delete a particular filing basis from an application or to divide an application identifying multiple goods and/or services into two or more separate applications. This information collection also covers requests for a 6-month extension of time to file a statement that the mark is in use in commerce or petitions to revive an application that abandoned for failure to submit a timely response to an office action or a timely statement of use or extension request. This information collection also covers circumstances in which an applicant may expressly abandon an application by filing a written request for withdrawal of the application.

The regulations implementing the Act are set forth in 37 CFR part 2. These regulations mandate that each register entry include the mark, the goods and/or services in connection with which the mark is used, ownership information, dates of use, and certain other information. The USPTO also provides similar information concerning pending applications. The register and pending application information may be accessed by an individual or by businesses to determine the availability

of a mark. By accessing the USPTO's information, parties may reduce the possibility of initiating use of a mark previously adopted by another. The Federal trademark registration process may thereby reduce the number of filings between both litigating parties and the courts.

##### II. Method of Collection

Items in this information collection must be submitted via online electronic submissions. In limited circumstances, applicants may be permitted to submit the information in paper form by mail, fax, or hand delivery.

The filing fees for several items in this information collection are charged per class of goods and/or services; therefore, the filing fees will vary for each respondent depending on the number of classes. The total filing fees of \$37,866,925 shown here are based on the minimum fee of one class for those items for which a fee is required.

Although the USPTO prefers that the items in this information collection be submitted electronically, the items may, in limited situations, be submitted by mail through the United States Postal Service (USPS). The USPTO estimates that the average postage cost for a mailed submission, using a Priority Mail 2-day flat rate legal envelope, will be \$8.05. The USPTO estimates that with a total of 95 permitted paper submissions, the postage costs in this information collection will be \$765.

The USPTO estimates that the total annual (non-hour) respondent cost burden for this information collection, in the form of postage costs and filing fees is \$37,867,690 per year.

*Respondent's Obligation:* Required to obtain or retain benefits.

#### IV. Request for Comments

The USPTO is soliciting public comments to:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected; and

(d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

All comments submitted in response to this notice are a matter of public record. USPTO will include or

summarize each comment in the request to OMB to approve this information collection. Before including an address, phone number, email address, or other personal identifying information in a comment, be aware that the entire comment—including personal identifying information—may be made publicly available at any time. While you may ask in your comment to withhold personal identifying information from public view, USPTO cannot guarantee that it will be able to do so.
